

# Importer for iManage

*The most powerful importer for iManage, yet*

GDSI's professional services team will handle all imports regardless of size.

## Example import services:

1. Import documents for a new group of users coming from another firm
2. Litigation content
3. Research content

## KEY FEATURES

- Import to an existing folder or build on the fly
- Support for all custom fields
- Uses the latest iManage Sync APIs for the best possible performance
- Import from any source

## SYSTEM REQUIREMENTS

- Support for on-premises 10.4 or newer *iManage.work*, *CloudiManage.com*
- SQL Server 2016-2022
